Water sports and toys are set up on the beach for guests to use, and there is plenty of time to enjoy them, or just relax and take it all in.

CAVIAR ON THE ICE

This event transforms the ship's deck into a world of frozen artistry, with a bar crafted entirely out of glistening ice. Fine Champagnes are chilled in the bar's custom-molded holders, and an abundance of rare caviars are available for tasting, on toast or on the traditional blini pancakes. SUSTAINABILITY

At Seabourn, we believe in the transformative power of travel. Sustainability is not just a corporate word for us, it is part of our culture, part of our brand heritage. It is multifaceted and ingrained in everything we do. Each year, Seabourn ships visit more than 450 ports worldwide, creating genuine, lasting connections between our guests and the communities they visit, fostering a deeper understanding and appreciation of the world around us. Preserving and protecting the environments and communities we travel to is a cornerstone of our operations. From how we curate our itineraries to maximize fuel efficiency, our waste management systems, and multiple initiatives to reduce food waste and single-use plastic, to the relationships we develop with these communities—sustainable practices are woven throughout.

- In 2024, Seabourn had the pleasure of announcing the forging of an incredible relationship with the Wunambal Gaambera Traditional Owners, whose rich cultural history, deep connection to the land and sea, and established sustainable tourism initiatives, combine to make them a natural fit to be godparents for Seabourn Pursuit. This is the first time a cruise line has partnered with Traditional Owners in this way, and Seabourn is honored to celebrate this milestone with the Wunambal Gaambera.
- Beyond our relationship with the Wunambal Gaambera people, we put significant planning into developing destination experiences around the world which reflect the priorities, interests, and well-being of the communities we visit.
 - When we visit our wilderness destinations, the sites are chosen with the goal of a minimal impact or footprint from our exploration. Guests are given instructions and guidelines that reflect the value we place upon safe, responsible, and environmentally sound practices in all our visits.
 - We are an active member in both AECO (Association of Arctic Expedition Cruise Operators) and IAATO (International Association of Antarctica Tour Operators) whose intrinsic goals are to advocate and promote the practice of safe and environmentally responsible private-sector travel to the polar regions. We apply these same principles to all our visits across the globe; not just to the polar regions where these rules are in place.
- Our shipboard team members regularly participate in service projects such as beach cleanups and food donations in the communities we visit.
- We support local economies and reduce our carbon footprint by buying locally, working with thousands of global suppliers every year backed by reputational research and a thorough vetting process.
- We prioritize the preservation of fresh water. Protecting the health of the oceans is a fundamental part of our business model and critical to our shipboard operations.
- We embrace efficient energy practices and technology that allow us to better support the goals of the international treaties, flag state, port state, local laws and regulations that govern our ships. Our expedition ships have been installed with a new system, Micro Auto Gasification System (MAGS), which significantly reduce waste offloads and reduce emissions.
- We protect and preserve the oceans we sail upon through our commitment to sustainably sourced seafood, and by minimizing and responsibly managing our food waste. We have food waste dehydrators on all our ships, which offer an alternate method of food waste processing that has the potential to reduce waste volume.
- We strive to reduce as much solid waste as possible. By prioritizing thorough recycling and waste management practices—and a focus on eliminating single-use plastics—we significantly reduce waste sent to landfills.

Join us on a journey that not only explores the world but also contributes to its preservation. **Together, we can be part of something bigger.**

VENTURES BY SEABOURN®

ENHANCE AND EXTEND YOUR EXPERIENCE

More and more of our guests relish the opportunity to engage with The Last Frontier in a more interactive, experiential, and participatory way. We created Ventures by Seabourn® to provide Alaska travelers with exciting, adventurous optional activities that are expertly planned, professionally operated, and escorted by skilled expert guides. Optional Ventures by Seabourn excursions let you experience nature up close in a way that is unique, exciting, and designed to accommodate a wide variety of abilities.

On select Alaska cruises, we augment our onboard staff with a veteran Expedition Team of naturalists, scientists, photographers, and other experts to enhance and broaden your destination experiences.

Complimentary onboard lectures, seminars, and presentations by our team of experts add insights into regional wildlife, natural and cultural history, geography, and other topics. During scenic cruising, Expedition Team members circulate on deck and in observation lounges, highlighting the sights with top-of-the-line Swarovski® binoculars.

Optional excursions launch directly from the ship, where you can kayak with Expedition Team guides through tranquil fjords and watch for wildlife along forested shores. In most

destinations, if you prefer to simply ride instead of paddle, our Expedition Team can take you on a scenic Zodiac tour. These marvelous boats are great for scenic eye-level cruising in fjords and along rivers.

During select cruises, we take advantage of the insider knowledge and relationships of our Expedition Team members to gain access to exclusive sites and experiences. It's all part of our Ventures by Seabourn mission to enhance and extend the way you experience destinations.

Our Ventures by Seabourn® expedition-style adventures are also a great opportunity to take a first step into expedition cruising if you have been curious about trying a voyage on our purpose-built expedition ships.

On Seabourn Venture and Seabourn Pursuit, your Expedition Team takes you to places laced with spectacular nature walks and hikes. Places where a Zodiac® can bring you up close to rare natural wonders. In addition, Included Shore Excursions have been specifically curated at many of our destinations, along with a variety of Included Expedition Experiences. The expedition team may guide nature walks, Zodiac cruises, and snorkeling in the search for incredible scenery and wildlife. Alternatively, we may experience a phenomenal cultural program from small villages across the South Pacific and beyond. Optional shore excursions, optional kayaking expeditions, and optional submarine adventures are also available at many of our destinations.

ZODIACS

In our inflatable Zodiac® boats, our guests can land on trackless beaches, desert isles, and far-flung icy shores where no docks or other facilities exist. Zodiacs carry us up towering fjords, past breaching whales and stately icebergs, and into jungle-draped channels bright with nesting birds. They deliver us to untouched coral reefs, bobbing patiently as we snorkel or dive to our heart's content. Our fleet of 24 Zodiacs can all gather beside the water-level shell doors on either side of Seabourn Venture and Seabourn Pursuit, allowing all guests to enjoy a complimentary tour at once.

KAYAKS

In our double sea kayaks, we can glide silently and gracefully along shorelines to approach animals at eye level, finding them curious and unafraid. In the quiet, we can enjoy the snaps of brash ice in a glacier's meltwater, the music of a waterfall, and the whoosh of a breeze through an old-growth forest. We can navigate tangled mangrove thickets teeming with life, and slip over multicolored tropical coral gardens.

SNORKEL GEAR

To open our guests' eyes to the colorful underwater world in warm-water destinations, we carry an array of high-quality masks, snorkels, and fins extensive enough to assure everyone a good fit. Expedition Team members can help beginners get started and show you the best snorkeling spots.
